

The iGo Primo 2.4 (Europe) (Windows CE 5.0) is a version of the popular GPS navigator for Windows CE, the latest edition of the Microsoft Windows Embedded Handheld platform. The installable file can be found on torrent site or other free file-sharing sites such as BitTorrent and TorrentLocker to download for free and then installed on your personal computer. This version comes with a lot of features making it one of the best GPS navigators for Windows CE to compare with others in the market. The iGo Primo 2.4 (Europe) (Windows CE 5.0) is also the first GPS navigator which can be installed directly on your personal computer, eliminating the need for additional hardware.
